Lint Sock & Lint Lasso

Please Contact us to discuss your installation and these products!

The Lint Sock & Lint Lasso, by CCS, is the perfect fit for applications too small to accommodate a Central Lint Collector such as the OPL 200 or 300 Series by CCS.

Effectively collects lint from the dryer system and provides a clean environment surrounding the duct vents.

Benefit: Dryers will perform more efficiently for longer periods of time. Lint Collection will be at one location.

Lint Lasso fits into the duct line. It consists of a 1) Fiberglass capsule housing with a hinged compartment that opens for cleaning. Once opened the compartment reveals a lint bag, which is easy to remove and reinsert.

2) Prewired Over-Pressure Alarm and installation kit

LINT SOCK'S Sturdy Design can withstand outdoor use in most climates.

One Complete Lint Sock Kit - Consists of: Sock, Collar, Probe tip, Hose, Control & Over Pressure Alarm

Part #: LS-(XX) = duct size
For example
6" Duct = LS- 6

The Lint Sock & Lint Lasso **MUST BE ACCOMPANIED BY THE CCS OVER PRESSURE ALERT, SYSTEM OPA-LS.** (See photo above). This will alert laundry personnel that the Lint Sock or Lint Lasso needs to be cleaned and will insure the dryers to operate properly and safely.

LINT SOCK MODELS

Part #	Capacity
LS- 6	= 600 cfm
LS - 8	= 950 cfm
LS- 10	= 1200 cfm
LS- 12	= 1700 cfm

LINT SOCK CAN HANDLE MULTIPLE DUCTS

How: **ADD ON LSK XX** for each additional duct. The following items below will be sent for each duct:

- Hose
- Probe Tip
- Sock or Lasso
- Collar

Remember to measure each duct size for the correct fit and part #

Example:
LSK6 for a 6" duct.

Both Models are available for duct sizes 4", 6", 8", 10" & 12"

LINT LASSO MODELS

Part #	Capacity
LTE- 4	= 250 cfm
LTE- 6	= 600 cfm
LTE- 10	= 920 cfm
LTE- 12	= 1700 cfm
