

SPECIFICATIONS OPL-303 Dry Lint Filter

The model **OPL-303** Filter collects lint produced from multiple laundry dryer applications. This unit requires minimal maintenance, simple to install and is a cost efficient solution to unsightly and potentially dangerous lint buildup.

Body: The housing is made out of fire retardant laminating resin (Fiberglass). The unit comes with four 1-1/4" aluminum pipe legs for floor mounting.

Filtering: An inner bag-like floating fine mesh screen (200 micron polyester) is designed to filter 98% of lint passing through the chamber.

Lint Collection: Lint drops or shaken off the screen into a fire retardant vinyl holding bag. The bag is equipped with two zippers for easy lint removal and screen cleaning.

Controls: A static pressure switch with audible alert is activated when a High Pressure situation occurs indicating the screen needs to be checked.

Capacity: 3,000 CFM

Screen Area: 16 Sq. Ft.

Screen Change Time: 5 min.

Electrical Req. for Overpressure Alert: 120V, 50/60 Hz, 3 amp

Shipping Weight: 300 lbs.

Shipping Cube: 48"W x 48"L x 56"H

Ave. Static Press. drop (Filter) : 0.2" WC
