# Lint Sock

*Please Contact us to discuss your installation and this product!*

The Lint Sock's **sturdy design** can withstand outdoor use in harsh climates.

To Right: **One Complete Lint Sock Kit**

Consists of: Sock, Collar, Probe tip, Hose, Control & Over Pressure Alarm

Part #: LS-OPA-XX  
XX = your duct size  
For example  
6" Duct = LS-OPA- 6

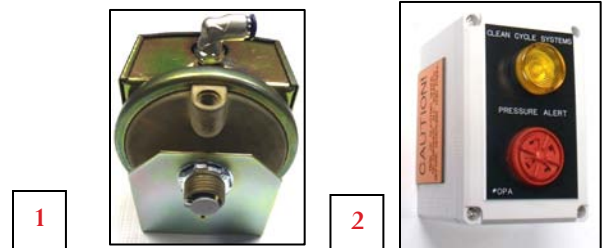

**VINYL SOCK** is available in different duct sizes. The Sock is created from Waterproof & Fire Retardant Vinyl Material.

The Lint Sock, by CCS, is the perfect fit for applications too small to accommodate a Central Lint Collector such as the OPL 200 or 300 Series by CCS.

Effectively collects lint from the dryer system and provides a clean environment surrounding the duct vents.

Dryers will perform more efficiently for longer periods of time. Lint Collection will be at one location.

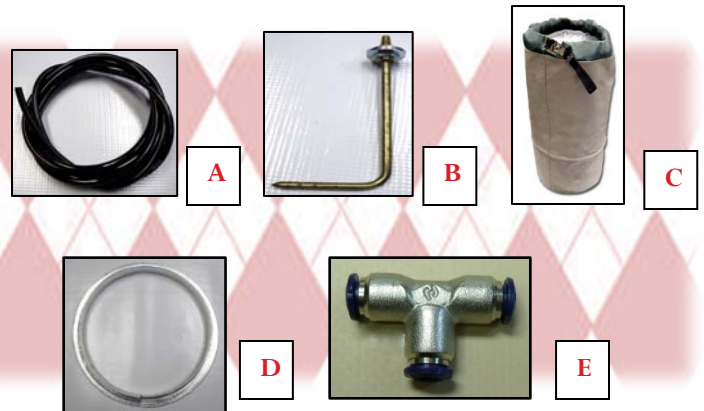

The Lint Sock **MUST BE ACCOMPANIED BY** The CCS OVERPRESSURE ALARM, SYSTEM OPA-LS, see photos above ( 1 & 2 ). This will alert laundry personnel that the Lint Sock needs to be emptied and will insure the dryers to operate properly and safely.

## Have Other Dryer Ducts ? "No" Problem !

Simply order the complete LS-OPA- X X ( above ) system and ADD ON each of the following for each dryer duct!

A) Hose B) Probe Tip C) Sock D) Collar E ) Tee Fitting  
(Remember to measure each duct size for corrent fit)
